November 30, 2020

Dear Parents and Guardians,

This letter is to notify you that the COVID-19 Dashboard has been updated with a new case that has been reported to the district. The case has been reported at the following school: Central School. **The dashboard reflects all cases from September 8 through today. The individual school pages only list from November 24 through today.**

*November 30 – A Central Elementary student tested positive for COVID-19 on November 29. The student took the test on November 28. The student was last in the building on November 24. There is no need to contact trace since the student was last in the building on November 24. Please be advised that contact tracing only goes back 48 hours from the date of the test or when the patient develops symptoms. In this case the date of the test was November 28. Looking back 48 hours takes the district to Thursday, November 26 which was Thanksgiving. This will not affect the Central AM/PM schedule.*

To view the dashboard of COVID cases in the district, visit the [COVID-19 Dashboard](#). Once on the dashboard you may click on a school for more detailed information.

The appropriate contact tracing, if required, will be conducted in a timely manner and all affected parties will be notified. In addition, the local health officer, the school doctor and other officials were notified as well.

Sincerely,

Brett Charleston, Ed.D.  
Superintendent of Schools
