**Happenings at Coleman School: Grade 2, Mrs. Di Lisio and Mrs. Lawson:** In writing, their students are currently working on a science-related research project on an ocean animal of their choice. They have been busy reading, taking notes and organizing their Google slide shows. The students are excited to share their slideshows with the class and their families soon. // **Ms. Cathy Mitchell's class** did a "Mystery State" activity where she zoomed with a classroom in another state. Every student from each class posed a question to their out-of-state friends which could hopefully help them to identify the state. Topics included food, landforms, weather and daily activities. While the students were given the answers, they used a variety of maps to help with their guesses. This was a great example of interactive learning and expanding the classroom walls!
